PROJECTS

guess-the-number
https://guess-the-number2.netlify.app
· In this project, I am using HTML, CSS, and JavaScript to create a 'Guess the Number' game. In this game, a random number is generated between 1 to 100, and the player attempts to guess that number. If the player selects the easy mode, they will have 10 chances to guess the number. If they choose the hard mode, they will have 5 chances to guess the number.

Portfolio
https://intro-portfolio.netlify.app
· In this project, I am using React.js to showcase my educational background, the technologies I have learned, and the details of my project.

TodoList
https://github.com/izhar9/TodoList.git
· In this project, I am utilizing React.js, Node.js, and MongoDB Atlas. Within the scope of this project, users are able to list out their everyday tasks. Once a task is completed, it can be marked as 'done' and optionally removed by the user.

E-DashBoard
https://github.com/izhar9/E-DashBoard.git
· In this project, I am utilizing ReactJS, Node.js, and MongoDB. The application includes user registration and login functionality, with JWT tokens employed for authentication. Post login, users gain the ability to add, update, and delete products.

EDUCATION

Bachelor of Engineering
Theem College of Engineering · Boisar, Palghar · 2024

Diploma in Computer Science
Government Polytechnic Mumbai · Bandra,Mumbai · 2021

Hsc in Science
Guru Nanak Khalsa College · Matunga, Mumbai · 2019

CERTIFICATIONS

HTML, CSS, JavaScript, React – Online Certification Course
udemy · 2023

The Complete MERN Stack Development course 2021
udemy · 2023

SKILLS

Front End : HTML , Css, JavaScript, ReactJs | Back End : Nodejs, Python(little bit) | DataBase : MongoDB,MySQL(little bit) | Git & GitHub
